## **Three Day Workshop for Creation of Guru Nanak Sacred Forest: A Mini Urban Forest with Native Trees**

A three-day Workshop from **April 1-3, 2019** was organised to create the mini urban forest in collaboration with EcoSikh and Afforest International organisations committed to promoting environmental awareness. Students and faculty from various institutes of the region participated in this workshop for hand-on training. On day 1, students and faculty visited Nepli Forest in the vicinity to study the native species of trees.

On Day 2, an area of 180 sq. meters on campus was identified and prepared for the establishment of the Mini-Urban Forest with the enthusiastic participation of the students.

**Identification and Preparation of the area for Mini Forest**

On Day 3 , tree planatation was carried out by Members of Management, guests, faculty and students accompanied by recitation of Shabad Kirtan related to ecology from Gurbani rendered by renowned Hazuri Raagi hymns related to ecology from *Gurbani*. Tree plantation was done with Japenes *Miyawaki* technique in which various native species of plants are planted close to each other so that the greens receive sunlight only from the top and grow upwards than sideways. As a result, the plantation becomes approximately 30 times denser, grows 10 times faster and becomes maintenance-free after a span of 3 years.

**Plantation by Dignitaries and Faculty during creation of mini forest**

**Plantation by students during creation of mini forest with hand-on training workshop**

*Conferences/ Seminars/ Workshops*

*Workshop for Creation of Guru Nanak Sacred Forest (April 01-03, 2019)*

**Commemorating 500th Birth Anniversary of Guru Nanak Dev ji**, SGGS College took a big stride in reducing the Carbon Footprint of the region through Environment Sustainability. The College initiated a novel idea of creating a mini forest on-campus with an objective to promote sustainable environment. It has been aptly named '**Guru Nanak Sacred Forest**'. 550 native species of trees were planted as a tribute to Guru Nanak Dev ji's ideology to live in harmony with the environment.

This habitation will be a natural air-purifying dense forest with as many as 37 native species of trees. It will help in creating 30 times more oxygen than regular plantation and will be a hub of natural biodiversity. This unique technique of planting has been derived from Japanese Miyawaki technique which stresses on natural restoration of land using native plant species.

A three-day Workshop from April 1-3, 2019 was organised to create the Forest in collaboration with EcoSikh and Afforest International organisations committed to promoting environmental awareness. Students and faculty from various institutes of the region participated hands-on including a visit to Nepal Forest in the vicinity to study the native species of trees.

Various dignitaries both International and National have visited the Sacred Forest and highly appreciated the efforts of the College. Mr Debendra Dalvi, IFS

Chief Conservator of Forests & Chief Wildlife Warden, Chandigarh, Dr Dalip Kumar, ASFO HUSA, District Forest Officers of Punjab and SES Executive members along with participants planted 550 saplings in the Guru Nanak Sacred Forest while Bhui Manpreet Singh Kauran rendered Shabd Kirtan from Gurbani. District Forest Officers of Punjab and Haryana along with farmers also attended the Workshop. During the session, the Sacred Forest was visited by S Kahan Singh Parmar, IAS Secretary, Agriculture & Soil Conservation & Mission Director, Tandirot Punjab and Commissioner, Food & Drug Administration and Director, Environment & Climate Change; S Kamaldeep Sangha IAS, Secretary, Punjab State Agricultural Marketing Board and Secretary, Punjab State Rural Development Board; Mr Karnarajpal Gujjar, Minister of Education, Forests and Tourism, Haryana; Dr (Mrs) Amritinder Kaur IFS, Principal Chief Conservator Forests Haryana; Mr T P Singh, IFS, Chief Conservator Forests, Haryana, also an alumnus of our College; Mr Alok Verma, IFS Asst Principal Chief Conservator Forests & Wild Life, Haryana; S Kandas Singh, father of S Harje Singh Sajjan, Minister of National Defence and Member of Parliament, Canada; S Jassant Singh Khaira, Secretary Akal College Council, GurusagarMamiana Sahib, Punjab and Mr Aditya Sharma, Hydro-metologist, Central Ground Water Board, Chandigarh visited along with his team on the occasion of World Soil Environment Day.

Information Technology is by far the most dynamic and ever evolving medium affecting, facilitating and simplifying human life and living. Today, after the boom in Networking and Software jobs, the past two years have seen a sharp rise in the field of Information Security. Information Security and Ethical Hacking is the latest buzzword in the industry and not without reason; in the past five years, the percentage of hacking crimes, data thefts, data loosed, viruses and other cyber crimes have increased exponentially.

"NASSCOM predicts requirement of 1, 88,000 IT Security professionals by the year 2016. Currently the number of security professionals in India is around 22,000" and according to Indian Govt. "There will be a demand of 4.7 lakh cyber security professionals by 2015 for protection of IT infrastructure in the country as well as to serve the export market".

Bearing this in mind, we at Appin Technology Lab like to conduct a technical workshop on "DATA & NETWORK Security: Economy & The Technologies".

We request you to join us, as we look at the current trends and future of Information Security and Secured Programming and how we can benefit from it. We would also like to extend this invitation to the Training and Placement Officer, HOD's of your college, as well as the students of the B.C.A and M.Sc(IT) department of your esteemed college, for them the Workshop/Seminar could be a real value add.
