

TESTIMONIALS

I congratulate the whole team of Institution Innovation Council for fostering a culture of Innovation and Entrepreneurship in our institute and organizing several webinars, panel discussions, mentoring sessions etc to enhance creativity and promote out of box thinking, which has encouraged not only students to launch their own startups but also the faculty to come up with innovative ideas. Through this council we strive to serve the mission of the government of creating Entrepreneurs, based on an action plan aimed at making our students job providers rather than job seekers and promoting implementation of Make in India Program and National Innovation & Startup Policy.

Through Institution Innovation Council of Sri Guru Gobind Singh College, we make a sincere effort to encourage the faculty and students to get involved in innovation and skill development by organizing several entrepreneurial and pioneering activities to unearth the innovative ideas from the young minds. I acknowledge the contribution of IIC, MOE for motivating us and showing us the direction. My heartfelt gratitude to RCED, Chandigarh and Santa Clara University, USA, for their full fledged cooperation and hand holding support in promoting a culture of innovation in our institute and encouraging our students to write their own success stories by setting up their startups.

Dr Navjot Kaur
Principal

Dr Taranjit Rao
Associate Professor
President, IIC

It is my proud privilege to be associated with Institution Innovation Council of Sri Guru Gobind Singh College, Sector 26, Chandigarh. I have also participated in several webinars and panel discussions organized by it and strongly feel that the institute is going an extra mile to promote innovation and entrepreneurship amongst its students and faculty. The college is striving hard to turn the vision of the government into reality by virtue of their commitment and sincere efforts.

Former Chairman, UBS
Panjab University Chandigarh
Director, Modern Dairies Ltd.

I am highly grateful to Institution Innovation Council of Sri Guru Gobind Singh College, Sector 26, Chandigarh for collaborating with RCED, Chandigarh and partnering with us for organizing several workshops and panel discussions. I appreciate their efforts in promoting innovation and entrepreneurship in their institute.

S. Paramjit Singh
Director, RCED

I am extremely thankful to the members of Institution Innovation Council of Sri Guru Gobind Singh College for guiding me and encouraging me to start my own venture. They not only showed me direction but also encouraged me for the same. I feel that the guidance and support provided by the council has gone a long way in making me confident and successful entrepreneur.

Ms. Harsinder Kaur
Woman Entrepreneur

My experience at SGGS College has taught me many fundamental things... I choose Innovation Cell which converts our ideas into reality. It was the wonderful experience I have with Innovation cell coordinator Dr. Taranjit Rao, Prof. Ramandeep Mander And Prof. Anupama Vashisht and my companions..... As a Student Coordinator of Innovation Cell I have learnt so many new things which I can apply to my life in future. I had a great time with my fellows while working in this cell.....So, one fine day when I see pictures from the college and my friends having a good time, I'll definitely land up smiling silently. It stays with me long after I've climbed those ladders of success. At last I thank to my teachers and my fellows to help me at every step and making my college life like a heaven....
