Ref. No.....474.....

Dated.....17/02/2022

NOTICE

Training and Placement Cell – Registration of Students

The Training and Placement Cell (TPC) of the College was established in the year 2003. Over the years, the Cell has been organizing placement drives, job fests and lectures/workshops for the benefit of the students. It has been observed that in addition to the subjective/technical expertise, students need to hone up their soft skills in order to compete in the job market. Hence, the **Training and Placement Cell** in collaboration with the **Resource Centre for Soft Skills Development and Training**, will conduct training program(s) for preparation of the interview process.

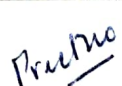

Training and Placement Cell will be organizing activities related to training and placement of final year students of Session 2021-22 in the coming months. To plan and organize various events, the Cell needs prior information and actual strength of students willing to actively participate in the same. Therefore, **Registration** with the Training and Placement Cell is mandatory for those who are willing to participate in the activities to be conducted by the Cell.

Class wise links of Registration forms are given below:

Note: Registration process will close on March 05, 2022.
