for more creativity and
innovation...

Is a curious **mind**.

*Innovations that
changed the world*

Ganesh Ram Jangir from Rajasthan founded Newndra Innovations and created the Jaipur Belt, which can reduce pressure exerted on the spinal cord and thus help deal with chronic back ache.

Top Innovations

**Innovation:- Car innovated by
Karl Benz in 1885**

GUGLIELMO MARCONI (1874-1937)

- *Is an Italian inventor, who proved the feasibility of radio communication.*
- *He sent and received his first radio signal in Italy in 1895.*
- *By 1899 he flashed the first wireless signal across the English Channel and two years later received the letter 'S', telegraphed from England to Newfoundland. This was the first successful transatlantic radiotelegraph message in 1902.*
- *He was inspired by Heinrich Hertz who was interested in sound waves, which gave him the chance to take things further. As well as using ideas from others that tried to further the knowledge of using the radio.*

Innovations around India:-

“ When it comes to
INNOVATION
an ounce of
EXECUTION
is worth more
than a ton of
THEORY”

*Innovations that
changed the world*

Sangeeta Chopra, scientist at Indian Agricultural Research Institute, Delhi along with scientists from Michigan State University conceived a solar-powered cold storage facility that can accommodate 2,000 kilos of farm produce.

Top Innovations

Invention:- Iron invented by Henry W. Seeley in 1882

First Hot Air Balloon (1783)

The brothers, Joseph Michel and Jacques Etienne Montgolfier, were inventors of the first hot air balloon. They used the smoke from a fire to blow hot air into a silk bag. The silk bag was attached to a basket. The hot air then rose and allowed the balloon to be lighter-than-air.

In 1783, the first passengers in the colorful balloon were a sheep, rooster and duck. It climbed to a height of about 6,000 feet and traveled more than 1 mile.

‘रचनात्मक सोच के लिए प्रशिक्षण के अलावा जुनून का होना जरूरी’

चंडीगढ़। सेक्टर-26 स्थित श्री गुरु गोबिंद सिंह कॉलेज की इंस्टीट्यूशन इनोवेशन काउंसिल की ओर से सोमवार को समस्या समाधान और विचार पर ऑनलाइन सत्र का आयोजन किया गया।

इसमें छात्रों और संकाय सदस्यों समेत सौ प्रतिभागियों ने हिस्सा लिया। सत्र की शुरुआत कॉलेज प्राचार्य डॉ. नवजोत कौर के स्वागत भाषण से हुई। प्रो. ए.के. वशिष्ठ ने समस्या समाधान और रचनात्मक प्रक्रिया के चरणों पर ध्यान देकर व्यवसाय में समस्या समाधान की अवधारणा को समझाया। उन्होंने कहा कि रचनात्मक रूप से सोचने के लिए प्रशिक्षण और जुनून दोनों जरूरी हैं। रिसोर्सपर्सन महाराजा अग्रसेन विश्वविद्यालय, बद्दी के स्कूल ऑफ मैनेजमेंट के डीन प्रोफेसर ए.के. वशिष्ठ ने कॉलेज में नवाचार और स्टार्टअप संस्कृति को बढ़ावा देने के लिए इनोवेशन सेल की सराहना की। ब्यूरो

स्टार्टअप कल्चर और इनोवेशन को प्रमोट करना चाहिए: प्रो. एके वशिष्ठ सिटी रिपोर्टर | चंडीगढ़

श्री गुरु गोबिंद सिंह कॉलेज इंस्टीट्यूशन इनोवेशन काउंसिल की ओर से प्रॉब्लम सोल्विंग एंड आइडिएशन पर ऑनलाइन सेशन कराया गया। जिसमें करीब 100 स्टूडेंट्स और फैकल्टी मेंबर ने पार्टिसिपेट किया।

महाराजा अग्रसेन यूनिवर्सिटी बद्दी के स्कूल ऑफ मैनेजमेंट के डायरेक्टर और डीन रिसर्च प्रो. एके वशिष्ठ ने बिजनेस में प्रॉब्लम सोल्विंग के कॉन्सेप्ट बताए और इसकी अलग-अलग स्टेज और क्रिएटिव प्रॉसेस की जानकारी दी।

समस्या का हल निकालने के लिए सबसे पहले जरूरी है कि उसकी जड़ को समझा जाए। क्रिएटिव सोचा जाए और ट्रेनिंग और थिंकिंग के जरिए इस कल्चर को प्रमोट किया जा सकता है।

उन्होंने कहा कि कॉलेजों में स्टार्टअप कल्चर और इनोवेशन को प्रमोट किया जाना चाहिए। इनोवेशन सेल की प्रेसिडेंट डॉ. तरनजीत राव में भी इसमें

Innovation often comes from looking outside your own industry.

Innovations around India:-

In 2016, K Deepak Reddy graduated with a degree in mechanical engineering from Hyderabad and returned to his native village Borancha in the Sangareddy district of Telangana where he built a multi-harvester machine that can dig out stones and rocks to turn barren lands cultivable and also harvest potatoes, onions and other root vegetables. The multi-purpose harvester is not only cost-effective but also efficient in terms of the time and effort required.

The resource person for the session was Mr. Rohit Swarup, Chairman, Innovation and Research Foundation and the purpose of organizing this session was to acquaint the faculty members with the concept of design thinking so as to encourage faculty members to be more creative and innovative and to create a culture of innovation in the college that is conducive to radical innovation and radical results. The session started with a welcome address by Dr. Navjot Kaur, Principal of the college. Dr. Ramandeep Mander, Convenor of the cell introduced the resource person to the participants, who started his talk by explaining the concept of 'Design Thinking' by discussing two case studies and highlighting that several higher educational institutions are reinventing the way they were doing the things by adopting a pedagogy of Design Thinking. He further emphasized the need to connect and collaborate with local industry to provide an opportunity to the students to use the infrastructure of the industry.

The session was followed by question answer session. The session was concluded by vote of thanks by Dr. Taranjit Rao, President of Innovation Cell of College.

*Innovations that
changed the world*

Innovations around India:-

Researchers from the Department of Chemical Engineering at the Indian Institute of Technology-Guwahati (IIT-G) have recently invented something which could shake up the global medical device industry. In a press release issued on 9 August, the institute claimed that their team of four researchers have invented what they call a 'Composite Transparent Wound Dressing Film'. They claim this material could change the way hospitals bandage wounds in a safer, more natural and eco-friendly way than using cotton wool, lint and gauzes.

1885 - Petroleum Power

The Reitwagen was designed and built by the German inventors Gottlieb Daimler and Wilhelm Maybach in Bad Cannstatt, near Stuttgart, in 1885. It was the first petroleum-powered vehicle, running on a light gasoline. Previous engines designed by Nikolaus Otto had been powered by town gas. The German name *Reitwagen* means "riding car". Daimler created this machine solely as a testbed to prove that his Grandfather Clock engine could work in a vehicle.

One Day Workshop on
"Basics of Research Paper Writing"

Date: June 8, 2021 | Time: 10.30 AM

Dr. Anup Thakur

Associate Professor (Physics)
Department of Basic & Applied Sciences,
Punjab University, Patiala, Punjab

Dr. Hitesh Sharma

Associate Professor
I K Gujral Punjab Technical University,
Kapurthala

Dr. Arshdeep Kaur **Dr. Taranjit Rao** **Dr. Ranber Singh** **Ms. Sarabjeet Kaur**
Co-Convenor Convenor Organising Secretary Patron
(Coordinator Innovation Cell) (Dean Research) (Principal)

Organising Committee: Dr. Ramandeep Mander, Ms. Meena Jindal,
Dr. Jaswinder Kaur, Dr. Anupama Vashisht, Dr. Ruchira Sen

Workshop Objectives

A great deal of efforts is involved to publish a high quality research paper. Some of the UG/PG students are also interested in publishing the papers for their PG thesis and for doing masters/Ph.D. in foreign countries. However, the UG/PG students do not know how to write a scientific research paper. Writing a scientific research paper is an art as well as a sophisticated knowledge based skill. This workshop is expected to develop academic skill of faculty and students in writing research papers, reference formatting and usage of other software tools.

Workshop Highlights and Schedule

Session I: 10.30 AM to 12.00 NOON

- Types of research paper (Original research, review, short communication, technical note, comments, etc.)
- Structure of a research paper (Title, Abstract, Introduction, Experimental/Theoretical, Results and discussion, Conclusion and References)

Session II: 12.15 PM to 1.45 PM

- Software Tools for writing a Research Paper
- Template of Research Paper
- Reference Formatting

Meeting Url: <https://meet.google.com/sjb-zsje-jxu>

E-Certificates will be issued to the participants who fill the feedback form.

Innovation distinguishes
between a *leader*
and a follower.

Innovations around India:-

Ayushman Nayak, a Class VII student from KIIT International School, conceived the idea of a washing machine that could reduce water waste by recycling and re-purposing water using a 5-layer filtration system.

Top Innovations

Innovation:- Petroleum
innovated by Edwin Drake in
1859

Innovations that changed the world

Birth of the Microscope

1590

- **Zaccharias Janssen** and his son Hans experimented with several lenses in a tube and discovered that nearby objects appeared greatly enlarged.
- This became the forerunner of the compound microscope and the telescope.

1609

- In 1609, **Galileo**, father of modern physics and astronomy, heard of these early experiments, worked on the principles of lenses, and made IMPROVEMENTS.

Innovations that changed the world

Kevin Jacob, a first-year engineering student from Thrissur, Kerala, has come up with his own mask that has an in-built speaker and amplifier, which he made using a 3D-printer he innovated in class 8.

Top Innovations

Innovation:- Internet invented by ARPANET in 1969

The First Clock

The first recorded clock was invented in 1300 BC by the Egyptians, they used a sundial, which works by the sun casting a shadow on a triangular pointer (much like the hour hand on our modern clocks). The dial is numbered all the way around to account for the hours, the number the shadow falls on, is what time it is.

JULY-2020

IS THE
BIRTHPLACE OF
INNOVATION,
CREATIVITY
AND
CHANGE.**

*Innovations that
changed the world*

Top Innovations

**Innovation:- Electricity
invented by Benjamin Franklin
in 1852**

The First Transistor

The workbench of John Bardeen and Walter Brattain at Bell Laboratories. They were supposed to be doing research about crystal surfaces, but the results hadn't been very good, and the company was about to cancel the project. But in 1947 they tried very pure semiconductor material and discovered the transistor

Innovation is seeing what everybody has seen and thinking what nobody has thought.

Innovations that changed the world

Innovations around India:-

Four students of Gurugram's Shiv Nadar school have created Postura, which has a unique sensory mechanism that alerts individuals when they slouch and trains them to correct their posture over a period of time.

Top Innovations

Innovation:- Smart Phone invented by IBM in 1992

1. The Watt was named after James Watt.

2. James Watt came up with the term 'horsepower' as a way to help explain how much work his steam engines could do for a potential buyer.

3. Steam engines are still used today to help run nuclear power plants and are also used for tourists on the Frestiniog railway in Porthmadog!

4. Thomas Savery in 1679 was the first person who invented the steam engine for work in mines.

5. The Rocket – the first steam train travelled at an average 12 mph but could reach 25!
